# Release your Firefly

Daksh / Chitkara

first thought: a campus gallery

campus layout

"roads still quite dont match the real. layout"

Picasso

"artistic 3d style interface"

Square One

it has to feel like OUR campus

what if making something helped you meet someone?

make
glow
meet

Newton

Edison

Claude + my maps + photos

3D campus / built in Three.js

the walkway

"red on buildings as details"

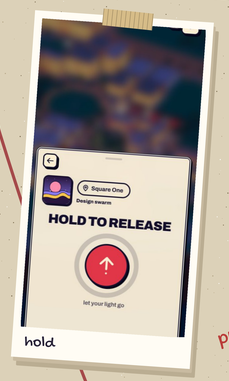

warm lights, not a dark filter

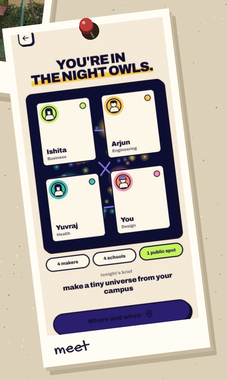

Fleming

SVG UI kit

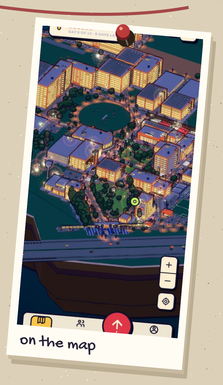

hold

meet

phone first

less text.
let the tap explain it.

on the map

glows received.
who glowed stays private.

4 art studies / GPT concepts

chai galaxy

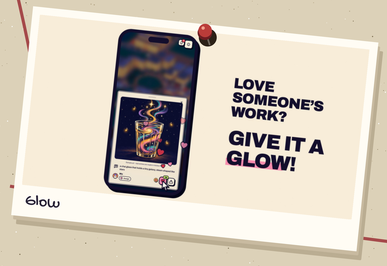

Turing

keep the prompts with the work

release flight

Glow

fix entrances + road spacing

Picasso

Square One

9 PM / meet

voice first.
then time the clicks + camera.

ElevenLabs -> motion tests

try the demo
no login
open it on a phone

open campus
